
NATALIE BELLEMARE

PROFILE

I am currently looking for a full time position involved with security, corrections and rehabilitation. I have had experience both in Canada and abroad (England and Scotland) during my early adulthood, and am excited to go forth and begin the new chapter in my life which will lead to a life-long career in a field I am very interested in. I have grown up with family and close family friends in law enforcement, and my overall goal down the years is to join the Toronto Police Department. I am an extremely devoted and hard working individual, with passion for public safety and the criminal justice system. I work well within a team, as much as I do alone and can handle high stress situations which I've faced in my past employment. Thank you for your consideration.

EXPERIENCE

CAMPAIGN MANAGER, ASTUTE LTD, BOURNEMOUTH UK - 2011

At Astute I managed a group of "live chat" employees (roughly 6-8 employees at any given time) who worked on behalf of Siemens Enterprise Communications. I was to look over the quality of our chats, create training guides for new employees, maintain databases (data entry) along with salesforce leads, and ensuring that our section of Astute performed to the peak of our ability and represented with excellent customer service.

ASSISTANT, SALON DEW, TORONTO, ON - 2013

At Salon Dew I was an assistant mostly for Craig Moir and the colour department. I shampooed their clients prior/after services, removed foils, applied toners, lighteners, etc. I would always make sure their stations and carts was kept tidy, and full of their tools needed. Ripping foils for colour, washing colour bowls/brushes/tubes, putting away colour orders and cleaning up the colour mixing station were also main duties. I would also sweep the floor after the stylists completed hair cuts, gave refreshments to clients and kept the salon in general tidy alongside the other assistants.

ASSISTANT & JUNIOR STYLIST, STUDIO FONTANA, TORONTO, ON - 2015

At Studio Fontana I was an assistant under the two orders Katie and Francesco Fontana. My job was to prep the salon prior to any stylists arriving, prepping their clients for service, along with assisting the stylists with colour mixing, foils, blowdrying clients and cleaning their station. Occasionally I had the chance to take walk-in clients for bang trims, haircuts and blowdries.
